CONFIGURABLE FORMS

PATIENT PLACE PLATFORM

Patient Place is the AQUILAB by Coexya platform that allows you to **customize your patient questionnaires** and **set up automatic reminders** to **keep patients engaged and informed** throughout the clinical trial process.

Eliminate paper forms to collect data from participants, **whether they are on-site or halfway around the world**, using **various devices** (tablets, phones, computers...).

The AQUILAB platform to manage
Patient Reported Outcomes (PROMs)

CONFIGURABLE

Customize your own patient surveys or use validated questionnaires.

The site can fill in for the patient with their consent. Patient Place ensures flexibility and integration.

CONNECTED

Patients have **easy access** with their own **computers, tablets or smartphones (BYOD)**.

The interface can be **connected to your eCRF or to our Onco Place platform**.

AUTOMATED

Automatic reminders keep patients engaged and informed throughout the clinical trial process.

Define automatic open-time questionnaire during follow up.

SECURED

All **ePRO data** are encrypted and **stored separately from medical data**.

Your data are stored within the EU on a **secure ISO 27001 certified and GDPR-compliant health data server**.

Available on PC, laptop, tablet and smartphone!
